

**Product Name :**  
3-5L Water Bottle Filling Machine

**Product Code :**  
FOOD-WTR0004

**Description :**

3-5L Water Bottle Filling Machine

**Technical Specification :**

The water bottle filling machine integrates bottle washing filling and capping machine into one monobloc 3 in 1 machine. The three processes are carried out fully automatically. It is ok to customize either for mineral water or pure water production, Carbonated or non-carbonated, use small PET bottle or 3-5L bottle or 5 Gallon bottle or glass bottle.

The machine elements that contact with the liquid is made of high quality stainless steel, The critical components are made by numerically-controlled machine tool, and the whole machine condition is under detection by photoelectric sensor. It is with advantages of high automation, easy operation, good abrasive resistance, high stability, low failure rate, etc.
