

**Product Name :**  
Small Scale Liquor Filling Machine

**Product Code :**  
FOOD-BER0004

**Description :**

Small Scale Liquor Filling Machine

**Technical Specification :**

This is liquid filling machines is widely used in liquid filling such as liquor,whisky,gin ,vodka,and other liquid industries. It is filled with high-precision metering pump and is suitable for different materials and different bottles.The structure of the machine is simple and reasonable, easy to operate, dust cover can optional.

Filling Heads: 6

Filling Volume: 50-500ml

Filling Speed: Abt. 1500-2000BPH (depends on bottle size and filling volume)

Air Pressure: 0.6-0.8mpa

Power Supply: AC220V; 50HZ 1 phase

Power: 1.5KW

Weight: about 500KG

Machine Size: About 2000\*1200\*1800mm (L\*W\*H)
