

Product Name :
Disposable Syringe Filling Machine**Product Code :**
FOOD-PRM0002**Description :**

Disposable Syringe Filling Machine

Technical Specification :

This is automatic gel booster drug filling capping machine, this machine is mainly used for filling and capping of disposable syringes. such as gynecologic gels, medical gels, various vaccines, etc.
The whole machine adopts PLC program control, frequency converter frequency conversion speed regulation, the syringe by the mechanical hand clamping and filling and then automatically add cap. The machine runs stably and reliably, and it is the optimal model for the gel filling of the syringe.

Filling head: 2

Stopper head: 2

Capping head: 1

Filling volume 3-10ml

Production capacity: 1000-3000 BPH

Power: 3ph, 380V/50Hz, 2.2KW

Weight: 500Kg

Dimension: 1800*2000*2000mm
