

Product Name :
Small Scale Nasal Spray Filling Capping Machine**Product Code :**
FOOD-PRM0003**Description :**

Small Scale Nasal Spray Filling Capping Machine

Technical Specification :

The filling and capping machine is a new product developed by our company in recent years. It uses a microcomputer to set the number of steps peristaltic pump to perform metering filling (ceramic pump is used in special occasions), and is used for the production of a new generation of daily chemical and pharmaceutical pastes. Products required by GMP. It can also be used for small-dose liquid filling and capping production in other industries.

Filling head: 1

Capping head: 1

Filling volume: 10ml

Production capacity: 40-50 bottles per minute

Air source pressure: 0.6-0.8MPa

Power: 1ph, 110V/50Hz, 1.5KW

Weight: 500Kg

Dimension: 2400*1100*1500mm
