

Product Name :
Meat Smoking Machine

Product Code :
FOOD-MET0043

Description :

Meat Smoking Machine

Technical Specification :

The smoked furnace adopts stainless steel structure, have smoked, drying, cooking, cleaning, baking, and other functions, users can according to the different requirements of product processing technology, choice of the reasonable process, realize the purpose of curing and sterilization. It has PLC automatic programmable control, convenient and simple operation. The smoked furnace special adopted double layer stainless steel radiator, making the furnace temperature lift rapidly, and drying effect is excellent.
