

Product Name :
Tin Can Label Pasting Machine

Product Code :
FOOD-LAB0012

Description :

Tin Can Label Pasting Machine

Technical Specification :

This machine is suitable for sticking a paper label on a cylindrical container. Film-coated labels with suitable flatness, hardness and thickness can also be attached. Whether the label is appropriate or not depends on the trial sticker. The machine adopts our unique gluing scheme to eliminate glue leakage at the bottom of the label box, making the glue range wider.

Labeling capacity: 200-400 tins / min

The diameter of tin: 75mm-114mm

The height of tin: 30mm-240mm

The length of label: 160mm-370mm

The width of label: 25-236 mm

Power: 380V 50HZ 3 phases, 2.62KW

Compressed air: 2-4Kg/cm², 10L/ min

Machine size: 1855mm x 750mm x 1250mm
