

Product Name :
Blister Liquid Forming Filling Sealing Machine**Product Code :**
FOOD-PACK0019**Description :**

Blister Liquid Forming Filling Sealing Machine

Technical Specification :

The liquid blister packing machine is suitable for packing different products like honey, oil, jam, sauce, chocolate, etc. It can automatically do blister forming, liquid filling, sealing, batch number printing, eye mark tracking and punching. It is easy to operate. The machine body and material contact parts are made by good quality stainless steel 304, easy to clean.

Punching Frequency: 10-20 t/min

Output Capacity: 2000-4000 pcs/h

Driving Length: 30-110 mm

Max. Forming Area: 150×100×25 mm

Air Consumption: ?0.4 m³/min

Forming Film: 160×(0.1-0.5) mm

Sealing Foil: 160×(0.02-0.04) mm

Voltage: AC 220V, 50Hz.

Power: 6.5 KW
