

Product Name :
Electric Meat Tenderizer

Product Code :
FOOD-IMT0002

Description :

Electric Meat Tenderizer

Technical Specification :

Electric meat tenderizer can cut off the connective tissue and the tendons and ligaments by two groups of sharp Multi blade, which can shorten processing time and add product taste. Belt speed can be adjustable according to capacity requirement. Electric meat tenderizer mainly is suitable for fresh meat.

| | |
|-------------------------------|---------------------------|
| Belt width | 600mm |
| Belt speed | 119-59 r/min |
| diameter of the knife | 130mm adjustable |
| Space between the cutter-axes | -5—30mm adjustable |
| Power | 0.75kw |
| The electricity | 380V/50Hz,3P,415v,220v/3p |
| Input height | 1000?1100mm |
| Output height | 1000?1100mm |
| Weight | 350kg |

Overall dimension

1000x1170x1100mm
