

Product Name :
Fruit Brush and Spray Cleaning Machine

Product Code :
FOOD-JCE002

Description :

Fruit Brush and Spray Cleaning Machine

Technical Specification :

Equipped with high-speed rolling elastic brush and high pressure spray, providing a thorough cleaning effect. The height of the machine is adjustable, ensuring a more flexible working performance. Our fruit brush and spray machine is equipped with a water pump and a filter screen, sending the washing water into the water tank and filtering the stains as well.

Brush and spray cleaning machine can be customized according to customers' requirements.
