

Product Name :
Fruit Washing Machine

Product Code :
FOOD-MJC0008

Description :

Fruit Washing Machine

Technical Specification :

This specialized water-saving washing machine can be used to wash mangos and other small and medium-sized fruits. We also provide another kind of washing machine called spray cleaning machine. When high pressure water strike the surface of fruits, water spouts containing many bubbles take shape and lash against the fruits until they are completely cleaned up. This kind of cleaning machine features high cleanliness and stability as well as energy and water efficiency.

First, it is suitable for a variety of fruits and vegetables.

Second, the washing water can be recycled after filtration.

Third, it is equipped with an elevator for material transmission.
