

Product Name :
Gusset Pouch Packaging Machine

Product Code :
FOOD-SUK-PPM-107003

Description :

Gusset Pouch Packaging Machine

Technical Specification :

Based on different materials, this production line is equipped with a variety of weighing and feeding options.

Pickle filler

Multi-head Computer Weigher

Conveyor

Working Platform

Station Process

Bag Feeding

Date Coding

Bag Opening

Filling

Filling

Standby

Heat Sealing

Forming and Output

Bag Size: W:70~200mm L:100~300mm (depended on the product & bag type)

Filling Range: 5~1500g

Packing Speed: 20~60bags/min (depended on the product and filling weight)

Package accuracy : Error?±1%

Total power: 3kw

Perfect Prevention System: when the bag is not open or not opened enough, it will be non-filling and non-

sealing, so the empty bags return to the first station to refill and not wasted and it will save the production cost. Stainless steel/other materials ensure sanitation and safety, meet the GMP standard.

Oil-free vacuum pump: avoid production environment pollution.

Waterproof Design: direct water-washing the machine surface, easy to clean, prolong the useful life.

Premade bag packing: high sealing quality, upgrade the finished product

Adopt concentrated oil-supplied lubrication device inside the grooved cam.

time, mechanical actions are controlled by end cam and tension springs, empty bag cycle

(Structure function is simple and cost lower than D model. Machine clamps are adjusted in product parameters can be saved)
