

Product Name :

Auger Filler

Product Code :

FOOD-SUK-MES118004

Description :

Auger Filler

Technical Specification :

Automatic auger filler is suitable for filling various easy flow or poor mobility of powder and small particles products.

All parts made in stainless steel, easy to clean.

Filling with high precision, filling volume and speed can be adjusted.

PLC control system, stable working, anti-jamming, high precise weighing.

Combined with packaging machine and other packaging related equipment.

Working Mode: Auger rotation filling tracked by weighing feedback

Packaging weight: 10-2000g (Exchange auger accessory)

Weighing Range: 1-2000g (with a resolution of 1g)

Weighing Accuracy: Package weight ? 100g: error ? \pm 1; ?1000g: error? \pm 0.5%

Working Speed: 10-45 bags/min

Total power: 1.5KW
