

Product Name :
Spout Pouch Filling Capping Machine

Product Code :
FOOD-SUK-P0CH121004

Description :

Spout Pouch Filling Capping Machine

Technical Specification :

PLC controller, HMI System, which control the speed and temperature precisely

Spout feeding automatically

Bag feeding automatically

No spout-no bag-no sealing, machine alarm and stop

Abnormal pressure or temperature, machine alarm and stop

Auxillary hole design: lighten the weight onto divider

Bay Types:

Spout Standup bag

Penguin bag

Station Process:

Spout Feeding;

Preheating;

3-4. Bag Feeding

5-9.Heat Sealing;

Cooling

Output

Rejecting

Working stations: Twelve stations

Fncion: 1) spout feeding 2) preheat 3)- 4) bag feeding 5)- 9) heat sealing 10) cooling 11?output 12?waste eliminating

Bag material and type: Flat bag Doypack and stand-up bag and other bags made of BOPP?CPP?PTT

Bags size: W: 60~120mm L:100~200mm (more sizes can be customized)
Capacity: 10-60bags/min (depending on type of product and packaging material used)
Total power: 6.58KW
Power supply: 380v (3P/4W);50HZ
Total weight: 2000KG
Dimensions: 2260mm×2160mm×1700mm
Bag feeding rate: 0.995
Compress air requirement (to be supplied by user): 0.8 Mpa,
Consumption?0.4m3/min
