

Product Name :
CSD Filling Machine**Product Code :**
FOOD-CBFM0003**Description :**

CSD Filling Machine China Manufacturer

Technical Specification :

This kind of complete set of machine combines washing, filling and rotary capping functions in one unit, is a fully automatic and high efficiency liquid packing equipment.

It is suitable for packing beverage containing gas. Its performance is as following: all parts, for instance, filling valve, which directly contact medium are made of stainless steel. So it conform to the requirements of Food sanitation. Sealing parts are made of heat-proofing rubber, in order to meet the technique requirements of users to sterilize the whole machine at high temperature. Using programmable controller to realize fully automatic control from bottles entering to finishing packing. Using transducer as speed regular. So the user can regulate the machine easily to suit different power requirements. Adopting balanced pressure filling principle and spring valves in order to assure beverage quality. Using advanced magnetic coupler to regulate cap-screwing torque, in order to assure capping quality.

Capacity: 500ml(1000~2000BPH)

Bottle height: 160~320mm

Bottle diameter: 75~100mm

Filling accuracy: $\pm 0.25\%$

Filling method: Balance Pressure Filling

Motor: 4.11KW
