

Product Name :
Automatic Aseptic Juice Filling Machine

Product Code :
FOOD-JFM0005

Description :

Automatic Aseptic Juice Filling Machine China Manufacturer

Technical Specification :

The juice filling line processing capacity is varied from 60 tons/day to 1500 tons/day
The juice production line Can deal with similar characteristic of fruits
Using the high efficient of destoner to improve the fruit output percentage effectively
Using efficient belt juice extractor to improve the juice efficiency and the output percentage
The production process fully automatic PLC control to save labor and Facilitate production management
Low-temperature vacuum evaporation, maximize reserve the flavor substances and nutrients also save energy
Tubular UHT sterilizer and Aseptic filling machine, produce high-quality aseptic juice products
Automatic CIP cleaning, ensure the entire juice filling line equipment of food hygiene and safety requirements.
