

Product Name :
Automatic Cooking Oil Filling Machine

Product Code :
FOOD-OLM0001

Description :

Automatic Cooking Oil Filling Machine China Manufacturer

Technical Specification :

This Automatic Bottled Sunflower/Olive/Vegetable Oil Filling Machine is a kind of fully automatic diving type piston filling machinery equipment, it mainly used for filling packaging various oil type products. The machine use piston pump rotary valve structure to fill, suitable for all kinds of sticky sauce, high precision; The structure of pump adopts shortcut dismantling organ, convenient to wash, sterilize. The piston ring of volumetric injection pump use different material of silicone, polyflon or other kinds according to sauce characteristic. PLC control system, frequency conversion adjusting speed, high automatically. The machine will stop filling without bottle, count bottle quantity automatically.
