

Product Name :
Automatic Blowing Machines

Product Code :
FOOD-AUT0001

Description :

Automatic Blowing Machine China Manufacturer

Technical Specification :

2L Pet Bottle Blow Moulding Machine.

Capacity: 500-2000 bottles per hour.

2000-5000 bottles per hour.

5500 bottles per hour~30000 bottles per hour.

Weight and size: according to the actual model.

After preform injection, the heat is used for bottle blowing, no need of preform packaging, storage, reh- eating and other working procedures.

Less land occupation, simple management, high degree of automation, less labor intensify (1 person can control more than 3 machines).

With a temperature adjustable station, suitable for complicated shape, difficult forming products (such as PP IV- solution bottles).

The compact structure greatly shortens the production cycle and enhances productivity.

Adopt variable pump and servo motor, maximally reduce energy consumption.
