

Product Name :
Stainless Steel Proofer

Product Code :
FOOD-RNG0002

Description :

Stainless Steel Proofer China Manufacturer

Technical Specification :

Fully automatic microcomputer touch panel, digital display accurately reflecting the temperature, humidity and time.

Full-automatic spray type humidifying system producing steam in 6 minutes after start up, speed up the humidity increase, hot air and convective design, making the internal temperature uniform.

Double layer full stainless steel/PU insulation course, more effective and artistic.

Safe protection for temperature exceeding by power off automatically.

Low power consumption and high steam production, saving time and power.
