

Product Name :
Gas Oven Cake Baking Oven Machine

Product Code :
FOOD-OVN0006

Description :

Gas Oven Cake Baking Oven Machine China Manufacturer

Technical Specification :

Material 0.8mm enough stainless steel 430, strong structure.

Gas burner made of stainless steel SS304, using NC drilling technology, baking uniform and long service life
With aluminum plated chamber(chamer size is 870*670*185mm), so the oven will not rust and very good baking effect.

With advance flame monior system, will automatic extinguishing flam in case of failure igniting.

Be equipped with overheat protector, power supply could cut off automatically when over temperature, more safety.

Have double electromagnetic valve control; and have timer to control the time accurately.

With upper and down independent temperature controller.

With 10 tray bread proofer.

Mainly use for baking all kinds of bread, cake, toast, loaf, biscuits, croissant, hamburgers and pastry etc.
