Product Name :	**Product Code :**
Self-Adhesive Labelling Machine	FOOD-PACK0007

Description :

Self-Adhesive Labelling Machine

Technical Specification :

Label type: Self-adhesive
Packaging types: Round bottles, jars, containers & buckets
Speed, max: 5000 labels/hour
Label height*length, max: 125*250 mm
Width/Diameter of labels rolls, max: 200/300 mm
Electricals: 220 V 50 Hz
Power: 1.2 kW
Self-adhesive labelling machine automatic application of self-adhesive labels on round bottles, containers, jars, and buckets.
Labelling machine is a fully automatic unit and requires minimum operator skills for setting operation parameters, installing rolls of labels, and placing containers on the infeed conveyor. An automatic labelling machine can be used as a stand-alone unit for applying self-adhesive labels on containers as well as an integrated part of automatic filling and packaging lines for various products.
