

Product Name :
Tabletop Weigh Filler

Product Code :
FOOD-PACK0012

Description :

Tabletop Weigh Filler

Technical Specification :

Dosing range: 10-1000 g

Product hopper volume: 30 litres

Speed, max: 600 doses/hour

Electricals: 220 V 50 Hz

Power: 0.5 kW

Tabletop weigh filler dosing and filling dry granular products in consumer packaging (bags, boxes, cans, etc). The product is fed from the product hopper using a vibrating feeding device. Compact tabletop weigh filler is a semi-automatic device and requires an operator to place an empty package under the filling area & press a foot pedal for dose releasing.

Advantages

High dosing accuracy

Low noise level

Product contact parts are made of food-grade stainless steel

Removable trays for easy cleaning and maintenance

Possibility to save up to 20 dosing values (recipes) in the controller memory

Single-phase power supply
