

Product Name :
Outfeed Conveyor

Product Code :
FOOD-PACK0015

Description :

Outfeed Conveyor

Technical Specification :

Package lifting height, max: 800 mm

Electricals: 380 V 50 Hz

Power: 0.25 kW

Outfeed conveyor move the finished product from the packaging machine and lift it onto the table or other surfaces. The outfeed conveyor can be used for other purposes, such as transporting or lifting packages, transferring packages from one line to another, etc.

The outfeed conveyor has an adjustable tilt angle of up to 40 degrees, which allows lifting packages on a surface up to 800 mm high. The conveyor belt has transverse ribs that prevent packages from sliding back when lifted.
