

Product Name :
Sausage Peeler

Product Code :
FOOD-MET0008

Description :

Sausage Peeler

Technical Specification :

- High productivity: up to 2.800 Kg/h
- Invisible cut in the product.
- Wide range of sausage sizes allowed.
- Speed control.
- Build under European standards.
- Generator system equipped with high efficiency vacuum.
- Non aggressive drive system
- Control and regulation of steam supply.
- Automatic vapor lock when there is no product.
- Anti-burnt curtain air produced by steam.
- Adjust system of the cutting knife that allows manipulation without losing the configuration.
- Minimal regulation and adjustment to change blade.
- Easy cleaning and general hygienic design.

Specification:

- Converter Motor : 0.75 HP
- Pump Motor : 4 HP
- Largest casing Dia : 32 mm
- Peeling Speed : 200 m/min
- Air Consumption at 6 bar: 0.36m³/min

- Weight : 230 Kg
