

Product Name :
Injector

Product Code :
FOOD-MET0015

Description :

Injector

Technical Specification :

- Stainless and acid-proof steel construction
- Precise injection of meat with and without bones
- Low costs of buying and exploitation
- Brine saving (injection only from the needles having contact with meat)
- Pressure fluent regulation in a range of 0,5-3,5 bar
- Brine circulation system with double filtration
- Conveyor belt steps regulation
- Wheels provide easy shift of the machine and container
- Machine easy to use and clean
- In standard model machine is equipped with 4 mm needles
- Option to change needles with 3 mm diameter (exchanging whole needles block)

Brine Container Capacity	L	100
Number of Needles	Pcs	20
Voltage	V/Hz	400/50
Effectiveness	Kg/H	700
Injection Percentage	%	10 - 45
Net weight	kg	370
