

Product Name :
Dual Temperature Combi Freezer

Product Code :
FOOD-REF110001

Description :

Dual Temperature Combi Freezer

Technical Specification :

With Environmental protection refrigerant and foaming agent;
Antirust galvanizing board material;
Increasing layer display together with advanced back blowing cooling system, have good temperature evenness;
Each shelf with LED lighting, energy saving and electricity safer;
Pure copper tube aluminum fin condenser and evaporator: low power consumption and low noise, reliable and durable;
Microcomputer digital temperature controller: accurate and easy to adjust;
Energy saving curtain is available for the use at night or other non-business hours;
